

Senseless Shooting

EDITOR:

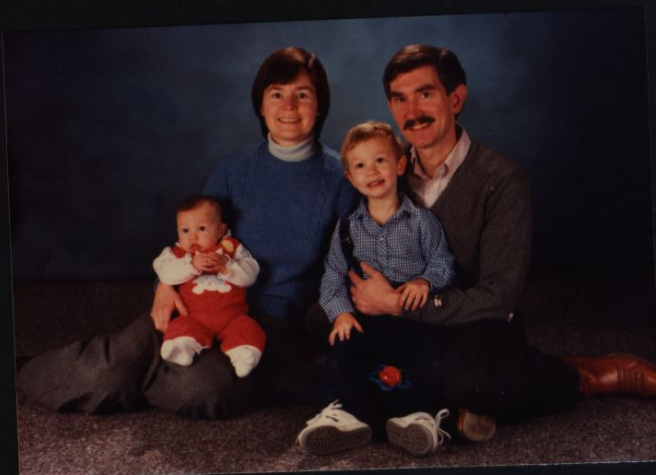

This is an open letter:

You are a murderer — whether intentional or not, the result is the same. You know who you are — we do not! All we know is that we have lost Amber, a loving and faithful pet of eight years.

Perhaps you are not even aware that you killed our dog when you shot her in the backyard of a private residence. Amber was innocently playing with Missy, her dog companion of many years (in Missy's own backyard). The shot entered her neck and traveled downward to destroy lungs, heart and vital organs. Even the vet was amazed that she had the strength to get back into the house before she died.

We are writing this because you have caused us great pain and anguish. We hope that you read this and regret what you did. Perhaps it will even stop another such senseless tragedy.
