Grandma and Grandpa's brags

Phillip 10 months

Summer Travels

Two relatively short trips this past summer - one to Tahoe and one to Oregon. Tahoe first, we visited Tom Jude and Hurley at their cabin in Tahoe City for two nights and then continued with the trailer to Sugar Pine Point State Park further south down the lake shore. The weather was great so we took a few hikes and lazed about.

Later in the summer we went up to Northern California and Oregon to visit with Lorenda, Tory and Carl. It was Tory and Carl's 60th wedding anniversary and they wanted to celebrate by riding the jet boats at Grants Pass. The ride is a blast. We took the dinner cruise and had a great barbeque. We stayed two nights at Lorenda's house in Grenada and then went on to Crater Lake. It was the height of the fire season so it was very smokey in the afternoons. You couldn't see the surface of the lake after about 3 in the afternoon. From there we did our usual stops at Lava Beds and then Lassen before returning home. A relaxing trip.

Kevin and Audra

Well they did it! They made us grandparents. Phillip Corbin was born January 27 at 11 pounds! He is a great kid. Very energetic and usually very happy.

Phillip is at the beginning toddling stage and is always into things. He loves to open and close cabinet doors and thinks its great fun to play peek.

They are now expecting their second child sometime in late spring. Wow, two kids in a little over a year. Talk about a life style change. Audra is taking some time off work and Kevin is adding some hours to his work schedule to make up the difference

Charlie

Charlie has changed jobs and is now working for a contractor that does construction work for one of the local wineries. He gets to do a number of different things in his job including driving truck, running equipment and other odds and ends. He likes the variety and the steady work schedule. He also owns his own backhoe and is beginning to build his business by doing weekend jobs. In his spare time he is restoring an old John Deere tractor in the backyard.

Pat and Julie

On Wednesday, November 6 Julie presented us with our second grandson, Nicholas Grant weighing 7 pounds 9 and a half ounces. He is getting along well - able to sleep up to seven hours already.

Pat and Julie continue to work on the remodeling of their home with help from family and friends.

Nicholas 2 weeks

CLASSIFIED ADS

For Sale: several very used John Deere tractor parts. Steering pedestal(cracked), frame(cracked), hood(dented), probably other unattached sundry items. Might fit your lawnmower - might not. Make offer - or suggest interest and it might appear in your driveway some night. (be careful what you ask for - you just might get it)

Merry Christmas
