

The Bodwell-Sonoma Gazzette

Winter Edition 1992

Price -Negotiable - We're Easy!

Pat's Progress

Pat is in his Senior year at Chico State still pursuing a degree in Civil Engineering. He is finding it a challenge. This past summer Pat worked on a local hay ranch driving tractors, hay bailers, rakes and combines. That was quite an experience for him. Long hours in the sun and dust.

Hi! From Kevin

Kevin is in his Sophmore year and has just turned sixteen. He will be getting his driver's license soon. So the family will have three young men driving. This past summer Kevin went with his cousin Tammy, who was visiting from Sweden, to Marine World and Great America. They had a great time going with Tory and Carl, Linda's sister and brother in law.

Charlie's Challenge

Charlie is in his Senior year at Sonoma Valley High School. He is planning to attend Santa Rosa Junior College in the Fall. He has been working at Sonoma Rental Center on Sundays and two days after school. He is using his earnings to take flight lessons and to work on his boat. Charlie has just turned eighteen and is finding out about voter registration and also the draft! Charlie just finished all his work on his Eagle Scout rank and is waiting for official word from the Council office that every thing is OK. His Eagle project involved building a storage shed for a local Historic State Park in the guise of an old shipping crate.

Bodwell Tours

Kevin, Grant and Linda traveled last summer to Oregon to visit Linda's mother who had moved to Medford. After the visit they went to Oregon Caves then on to Grants Pass. At Grants Pass they rode on the jet boat excursion down the Rogue River. It was an exciting ride through the riffles and down to a scenic spot called Hellgate Canyon. It has been the location for several movies. After Grants Pass they moved on to Lava Beds National Monument for another visit. Lava Beds is one of their favorite places to prowl around in. Next, on to Lassen Volcanic National Park for another hike up to the peak of Mt. Lassen. This is always a high point in any summer (hee hee, pun intended!!).

This Old Boat!

An old boat came to the Bodwell household last spring. It had been stored in the backyard of friends for many years. Grant, Linda and

Kevin worked on the boat to get it running again. New top, engine work, fiberglass here and there. Voila! New, Old Boat!
